Notas Generales

Uno de los principales elementos que conforman la modernización del marco regulatorio en materia de seguros y fianzas contenido en la Ley de Instituciones de Seguros y de Fianzas (LISF), está relacionado con el fortalecimiento del esquema de solvencia en lo que se refiere a sus requerimientos cuantitativos.

En este ámbito, la LISF introdujo diversos aspectos relevantes: i) criterios de valuación de activos y pasivos consistentes con la generación de un *balance económico* de las instituciones; ii) procedimientos para la constitución y valuación de las reservas técnicas a partir de un esquema que busca reflejar una aproximación de esos pasivos a su *valor de mercado*, a través del empleo del Método del Mejor Estimador; iii) mecanismos de cálculo del Requerimiento de Capital de Solvencia (RCS) con base en la Fórmula General, o bien, mediante la utilización de modelos internos, y iv) un esquema de cobertura de ambos requerimientos estatutarios, introduciéndose cambios, tanto en materia de inversiones como del sistema de respaldo del RCS a través de Fondos Propios Admisibles.

Así, de conformidad con la Circular Única de Seguros y Fianzas (CUSF), dichos requerimientos cuantitativos entraron en vigor a partir del 1 de enero de 2016, estableciendo que las Instituciones de Seguros y de Fianzas deberían presentar por primera vez los nuevos Reportes Regulatorios para fines de supervisión con información correspondiente al primer trimestre de 2016.

En virtud de lo señalado anteriormente, es importante tomar en consideración que los resultados obtenidos bajo la nueva

normativa, fundamentalmente en lo que respecta al nivel de las reservas técnicas y del RCS, la cobertura de la Base de Inversión y la determinación de los Fondos Propios Admisibles, no serán necesariamente equivalentes con los resultados obtenidos bajo la regulación anterior, lo que deberá tomarse en cuenta al revisar el Reporte Informativo Trimestral de los Sectores Asegurador y Afianzador.

Las cifras contenidas en la presente publicación reflejan el impacto de la implementación del actual esquema regulatorio de seguros y fianzas en México. Cabe destacar que el crecimiento de los seguros de vida y de ciertos seguros de crédito, se debe en parte al cambio en el registro contable de la prima directa, al pasar de registrarse en base a operaciones a recibo (ej. Recibo de pago mensual, trimestral, etc.) a registrarlas en base a períodos determinados por el contrato o hasta por un año, es decir, la prima al momento de su registro deberá comprender las primas futuras hasta de 12 meses.

La información, al cierre del cuarto trimestre de 2016, presentada en esta publicación proviene del Sistema Integral de Información Financiera de la Comisión Nacional de Seguros y Fianzas, que recoge los reportes que las Instituciones Aseguradoras y Afianzadoras entregan a la CNSF. Todas las cifras corresponden a valores preliminares al 22 de febrero de 2017 y son presentadas en miles de pesos.

La información financiera presentada por las instituciones y sociedades mutualistas de seguros y las instituciones de fianzas, de acuerdo con lo dispuesto por la Ley de Instituciones de Seguros y de Fianzas, es

revisada por la Comisión Nacional de Seguros y Fianzas la cual podrá ordenar las modificaciones que conforme a la propia Ley estime necesarias en forma posterior a su publicación.

La información técnica presentada en esta publicación proviene de las siguientes fuentes:

- ❖ Formas Estadísticas de Seguros: Daños sin Automóviles, Automóviles y Pensiones.
- ❖ Sistema Estadístico de los Seguros y del Sector Afianzador: Vida, Accidentes y Enfermedades y Fianzas.

Por otra parte, en los cuadros comparativos, cuando los montos a compararse sean menores a 500 pesos, los mismos aparecen como ceros debido al redondeo y formato de presentación.

Estado de Resultados

En el cuadro del Estado de Resultados del Mercado Total se incluyen los siguientes montos del Fondo de Pensiones o Jubilaciones y Primas de Antigüedad en Administración:

Costo Neto de Adquisición;

| | |
|---------------------------|---------|
| AXA Seguros | 0.0 |
| Grupo Nacional Provincial | 3,083.3 |

Utilidad (Pérdida) Técnica;

| | |
|---------------------------|------------|
| AXA Seguros | 0.0 |
| Grupo Nacional Provincial | (13,083.3) |

Resultado de Operaciones Análogas y Conexas;

| | |
|---------------------------|---------|
| AXA Seguros | 6,714.4 |
| Grupo Nacional Provincial | 0.0 |

Utilidad (Pérdida) Bruta;

| | |
|---------------------------|------------|
| AXA Seguros | 6,714.4 |
| Grupo Nacional Provincial | (13,083.3) |

Gastos de Operación Netos;

| | |
|---------------------------|------------|
| AXA Seguros | 0.0 |
| Grupo Nacional Provincial | (31,908.9) |

Utilidad (Pérdida) del ejercicio;

| | |
|---------------------------|----------|
| AXA Seguros | 6,714.4 |
| Grupo Nacional Provincial | 18,825.7 |

(Las cifras que se presentan en el cuadro anterior se encuentran en miles de pesos.)
